Shay Gilpin

Department of Mathematics, University of Arizona, Tucson, AZ
sgilpin@arizona.edu https://sgilpin4.github.io

EDUCATION

Doctorate in Philosophy **Aug 2023**
University of Colorado Boulder, Applied Mathematics.
Advisor: Dr. Tomoko Matsuo
Thesis: *A new perspective on covariance propagation for data assimilation applications.*

Masters of Science **May 2022**
University of Colorado Boulder, Applied Mathematics.

Bachelor of Arts **Jun 2017**
University of California Santa Cruz, Mathematic major, minor in Chemistry.
Summa cum laude with highest honors in the major.

RESEARCH EXPERIENCE

Postdoctoral Research Associate I **Aug 2023 – Present**
Department of Mathematics, University of Arizona. Funded by the National Science Foundation Data Driven Discovery Research Training Grant (RTG).

National Science Foundation Graduate Research Fellow **Aug 2019 – Aug 2023**
University of Colorado Boulder. Graduate research funded by the National Science Foundation (NSF) Graduate Research Fellowship. Advisor: Dr. Tomoko Matsuo.

Visiting Scientist **Oct 2017 – Mar 2019**
UCAR COSMIC Program. Research scientist at the University Corporation for Atmospheric Research (UCAR) Constellation Observing System for Meteorology, Ionosphere and Climate (COSMIC) Program. Advisor: Dr. Richard Anthes.

NSF SOARS Protegé **Jun – Oct 2017; Jun – Aug 2016**
UCAR. NSF Significant Opportunities in Atmospheric Research and Science (SOARS) research intern at the UCAR COSMIC Program.

FELLOWSHIPS, GRANTS, AND HONORS

American Mathematical Society (AMS)-Simons Travel Grant **Jul 2024**
Travel grant awarded to postdoctoral researchers which provides two years of support for travel to conferences and collaborative work provided by the Simons Foundation.

Donald L. Turcotte Award **Sep 2024**
Recognization for outstanding dissertation research in nonlinear geophysics awarded by the American Geophysical Union.

National Science Foundation Graduate Research Fellowship **Apr 2019**
Five year graduate research fellowship funded through the National Science Foundation that supports outstanding graduate students in the science, technology, engineering, and mathematics disciplines.

PUBLICATIONS

Gilpin, S., Matsuo, T., and Cohn, S.E., 2024: *Inaccuracy of the variance evolution associated with discrete covariance propagation*, under review at *Q. J. Roy. Meteor. Soc.*, submitted August 2024.

Gilpin, S., Matsuo, T., and Cohn, S.E., 2023: *A generalized, compactly-supported correlation function for data assimilation applications, Q. J. Roy. Meteor. Soc.*, 149, 1953 – 1989, https://doi.org/10.1002/qj.4490.

Gilpin, S., Matsuo, T., and Cohn, S.E., 2022: *Continuum covariance propagation for understanding variance loss in advective systems, SIAM/ASA J. Uncertainty Quantification*, 10, 886 – 914, https://doi.org/10.1137/21M1442449.

Gilpin, S., Anthes, R., and Sokolovskiy, S., 2019: *Sensitivity of forward-modeled bending angles to vertical interpolation of refractivity for radio occultation data assimilation, Mon. Wea. Rev.*, 147, 269 – 289, https://doi.org/10.1175/MWR-D-18-0223.1

Gilpin, S., Rieckh, T., and Anthes, R., 2018: *Reducing representativeness errors during radio occultation – radiosonde comparisons, Atmos. Meas. Tech.*, 11, 2567 – 2582, https://doi.org/10.5194/amt-11-2567-2018.

INVITED TALKS AND SEMINARS

Gilpin, S.: *A new perspective on covariance propagation for data assimilation applications*, Turcotte Awardee Lecture, American Geophysical Union Annual Meeting, Washington D.C., December 9 – 13, 2024.

Gilpin, S., Matsuo, T., and Cohn, S.E.: *Inaccuracy of the variance evolution associated with discrete covariance propagation*, Advances in Data Assimilation, Data Fusion, Machine Learning, Predictability and Uncertainty Quantification in the Geosciences, American Geophysical Union Annual Meeting, Washington D.C., December 9 – 13, 2024.

Gilpin, S.: *A new parametric correlation function for geophysical data assimilation applications*, IGPP Seminar, Scripps Institution of Oceanography, UCSD, San Diego, CA, April 17, 2024.

Gilpin, S., Matsuo, T., and Cohn, S.E., 2023: *Covariance propagation in data assimilation: a continuum analysis for advective systems*. Mathematical Approaches of Atmospheric Chemical Constituent Data Assimilation and Inverse Modeling Workshop, Banff, Alberta, CAN, March 19 – 24, 2023.

Gilpin, S.: *Bringing science to the next generation: the impacts of Richard Anthes on a young scientist's carrer*. Invited Oral Presentation, American Meteorological Society Annual Meeting, Phoenix, AZ, 2019.

CONFERENCE ACTIVITY

Gilpin, S., Morzfeld, M., and Lin, K.,: *Covariance estimation for high-dimensional geophysical applications*. Oral Presentation. SIAM Mathematics of Planet Earth, Portland, OR, June 10 – 12, 2024.

Gilpin, S., Matsuo, T., and Cohn, S.E.: *The inaccurate variance evolution associated with discrete covariance propagation*, Oral Presentation, 12th Workshop on Meteorological Sensitivity Analysis and Data Assimilation, Lake George, NY, May 19 – 24, 2024.

Gilpin, S., Morzfeld, M., and Lin, K.: *Covariance estimation for high-dimensional geophysical applications*. Oral Presentation. CaCAO Days, Scripps Institution of Oceanography, UCSD, San Diego, CA, April 15 – 16, 2024.

Gilpin, S., Matsuo, T., and Cohn, S.E.: *An alternative approach to standard methods of covariance propagation*. Oral Presentation, SIAM Conference on Uncertainty Quantification, Trieste, Italy, February 27 – March 1, 2024.

Gilpin, S., Matsuo, T., and Cohn, S. E.: *A generalized, compactly-supported correlation function for data assimilation applications*. Oral Presentation, American Meteorological Society Annual Meeting, Denver, CO, January, 2023.

Gilpin, S., Matsuo, T., and Cohn, S. E.: *Continuum covariance propagation for understanding variance loss in advective systems*. Poster Presentation, WCRP-WWRP Joint Symposium on Data Assimilation and Reanalysis (virtual), September 12 – 18, 2021.

Gilpin, S., Matsuo, T., and Cohn, S. E.: *Continuum covariance propagation for understanding variance loss in advective systems*. Contributed Presentation, Society for Industrial and Applied Mathematics (SIAM) Conference on Mathematical & Computational Issues in the Geosciences (virtual), June 21 – 24, 2021.

Gilpin, S., Matsuo, T., and Cohn, S. E.: *Continuum covariance propagation for understanding variance loss in advective systems*. Oral Presentation, International Symposium on Data Assimilation (virtual), March 12, 2021.

Gilpin, S., Rieckh, T., and Anthes, R.: *Reducing representativeness errors during radio occultation – radiosonde comparisons*. Oral Presentation, American Meteorological Society Annual Meeting, Phoenix, AZ, January 2019.

Gilpin, S., Anthes, R., Sokolovskiy, S., and Rieckh, T.: *Calculation of radio occultation bending angles from models: sensitivity to vertical interpolation methods.* Oral presentation, American Meteorological Society Annual Meeting, Austin, TX, January 2018.

Gilpin, S., Anthes, R., Sokolovskiy, S., and Rieckh, T.: *Calculation of radio occultation bending angles from models: sensitivity to vertical interpolation methods.* Poster presentation, COSMIC/IROWG Workshop, Estes Park, CO, September 2017.

Gilpin, S., Rieckh, T., Anthes, R., and Lu, G.: *An elliptical approach to radio occultation and radiosonde comparisons.* Poster presentation, American Meteorological Society Annual Meeting, Seattle, WA, January 2017.

Software Development

A Generalied Gaspari-Cohn Correlation Function **2023**
https://doi.org/10.5281/zenodo.7859258
Python software to construct the Generalized Gaspari-Cohn correlation function in Gilpin et al., (2023).

Teaching Experience

Instructor
Introduction to Linear Algebra (Math 313), University of Arizona. **Fall 2024**
Instructor of record for lecture-based, in-person course.

Instructor
Undergraduate Teaching Assistant (UTA) Seminar (Math 491), University of Arizona. **Fall 2024**
Weekly teaching pedagogy and professional development course for the UTA Program.

Instructor
Wildcat Proof Workshop (Math 396L), University of Arizona. **Spring 2024**
Instructor of record for weekly, collaborative-based supplement to the lecture course.

Instructor
Vector Calculus Supplement (Math 196V), University of Arizona. **Spring 2024**
Instructor of record for weekly, collaborative-based supplement to the lecture course.

Instructor
First Semester Calculus (Math 122B), University of Arizona. **Fall 2023**
Instructor of record for lecture-based, in-person course that meets Monday-Friday.

Teaching Assistant
Teaching Excellence, University of Colorado Boulder. **Fall 2020**
Teaching assistant for the graduate course on teaching pedagogy.

Teaching Assistant
Calculus 1 and 2 for Engineers (APPM 1350, 1360), University of Colorado Boulder. **Fall 2020,**
Teaching assistant for undergraduate calculus courses. **Spring 2019, Fall 2018**

Academic Service, Mentoring, and Scientific Outreach

Undergraduate Teaching Assistant (UTA) Program Co-Coordinator **Nov 2023 – Present**
University of Arizona. One of two coordinators of the UTA program, which provides undergraduate math majors teaching experience in upper division math courses.

RTG Seminar Co-Organizer **Aug 2023 – Present**
University of Arizona. Co-organizer of the department RTG Seminar, focusing on technical topics in data driven discovery and applied mathematics, and professional development for graduate students.

Undergraduate Research Mentor **Jun – Aug 2024**
University of Arizona. Research mentor for a undergraduate student in the NSF Data Driven Discovery RTG Summer REU Program.

RTG Showcase Co-Organizer **Jan – Apr 2024**
University of Arizona. Co-organizer for a two-day workshop on Data Driven Discovery hosted by the University of Arizona on April 13 – 14th, 2024.

Applied Mathematics Graduate Student Mentor **Jul 2019 – Jul 2023**
University of Colorado Boulder. Mentorship program for first year graduate students in the Applied Mathematics Department.

AWM/SIAM Study Session Coordinator **Jan 2020 – May 2022**
University of Colorado Boulder. One of two coordinators for the Association for Women and Math (AWM)/Society for Industrial and Applied Mathematics (SIAM) study sessions for Calculus 1/2/3 and Differential Equation courses.

Center for Teaching and Learning Lead **May 2020 – May 2021**
University of Colorado Boulder. One of two lead teaching assistants for the Applied Mathematics Department, serving as a resource for department teaching assistants and liaison between department and the Center for Teaching and Learning.

Gilpin, S.: *Mathematics of the atmosphere and how we predict the weather.* Oral Presentation, CU Boulder STEMinar Series, April 6, 2021.

Graduate School Peer Mentor **Aug – Dec 2019**
Mentor for a first year PhD physics student, providing support and mentorship through the first semester of graduate school.

NSF SOARS Mentor **May – Aug 2019**
UCAR. Mentor for a NSF SOARS Protegé through the UCAR. Included mentoring in research skills, presenting scientific research, and the graduate school application process.

Professional Development and Workshops

Transforming Your Research into Teaching (TYRIT) Workshop **Jun – Jul 2022**
University of Colorado Boulder. The TYRIT workshop series teaches graduate students how to build a course from the ground up using their PhD research as the inspiration for their course.

Gilpin, S. and V. Stout: *Establishing Your Ideal Classroom Climate on Day 1.* Center for Teaching and Learning Fall Intensive, August 20, 2020.

Joint Effort for Data Assimilation Integration (JEDI) Academy **Jun 2019**
UCAR. The JEDI Academy Workshop provides an overview and training in the Joint Center for Satellite Data Assimilation's JEDI system.

Honors, Awards, and Certificates

Certificate in College Teaching **Aug 2022**
Certificate awarded through the Center for Teaching and Learning (CTL) at the University of Colorado Boulder, for graduate students to develop a firm foundation in college teaching.

Society for Industrial and Applied Mathematics Travel Award **May 2021**
Travel award for attendance at the Society for Industrial and Applied Mathematics Conference on Mathematical & Computational Issues in the Geosciences, June 21 – 24, 2021.

American Meteorological Society Conference Best Student Presentation **Feb 2019**
Best student presentation at the 23rd Integrated Observing and Assimilation Systems for the Atmosphere, Oceans, and Land Surface (IOAS-AOLS) Conference at the American Meteorological Society Annual Meeting, Phoenix, AZ, 2019.

Memberships
